

## Eco Warriors Minutes 14.06.23

Attendees: Caine, Tilly, Hollie, Jemima, Bonnie and Dixie

Apologies: Katie, Gracie, Dolly and Aiden

### 1. Announcements

Black out day Friday 16<sup>th</sup> June. Remind your classes!

### 2. Discussion

We talked about what black out day will look like this Friday. We have the meter readings for a normal day and on Friday Mr Jones and Miss Evans will get the blackout day readings and compare them. Hopefully they will be less! We talked about all the devices we cannot use.

Caine suggested we remind our classes and encourage classes to go outside to learn.

### 3. Actions

We did a soil experiment with our soil in the woodland area. See photos attached and sound that our soil has sand, heavy clay and loam inside. This made sense as we are close to the

beach!

4. To do for next week:

- Share black out day posters with your class again
- Take plenty of photos of black out day
- Friday collect meter readings on black out day and compare.
