III. Assignments / Actions

The children have decided that they want to design and create information posters over the next couple of weeks to let all children know what our pupil voice group is about. Photos of all attendees were taken ready for our European Ambassador board. We didn't get the time to discuss the various responsibilities of all the ambassadors. We briefly discussed the International Language part of our curriculum.

IV. Safeguarding / Wellbeing

All children were happy to attend and seemed really enthusiastic about what they can do to ensure our school is working with an international language and learning about the different cultures within Europe.
