

PUPIL VOICE NEWSLETTER

The School Councillors

We have enjoyed making sweetie mugs for the christmas fayre and selling them to our community!

My favourite part has been creating surveys and making powerpoints to present in assemblies!

We have been able to say what artists we would like to work on a project in our school. We have even interviewed them over teams to make our selection!

We have liked talking to our classes to get their points of views and updating them on our weekly meetings.

A MESSAGE FROM YOUR SCHOOL COUNCIL

We have really enjoyed being the pupil voice for Ysgol Maes Owen this year. From being involved in the community, creating surveys, presenting findings and making our school a better place!

From Your School Council

Criw Cymraeg Updates

Blwyddyn brusur iawn! We've had an incredibly busy year and our Criw Cymraeg have shown great determination, dedication and enthusiasm throughout. They have continued to promote the Welsh language in and around our school and have done so with great pride. To end the year they have given all children the opportunity to have their say once more. These results have been analysed and we have created a new action plan for next year. Don't forget - our last monthly podcast for this academic year, called Podlediad Criw Cymraeg, is still available on Spotify! Diolch mawr i bawb! A huge thank you to all who supported us with this project. Also a great big **DIOLCH** to Mr Hughes and PaintWell Abergele too. They have kindly supported us with painting our caban Cymraeg and the Criw have created blychau gemau, game boxes for our Welsh games during break and lesson times.

Diolch pawb!

WHAT A FANTASTIC YEAR IT HAS BEEN!

Eco Warriors Updates

The Eco Warriors have been working hard this year to become an Ocean friendly school. They met with the Marine conservation society back in January. Since then, they have been completing tasks such as research, investigations, litter picks and campaigns to reduce plastic water bottles in school. We celebrated our success with a sharing assembly and have become the first Ocean Friendly School in North Wales. The Marine conservation society came in to present the school with their award. A fantastic achievement for the school and learners.
